

Michaël and Tanguy

We met in our third year at the IT **engineering** school.
A great **friendship** was born.

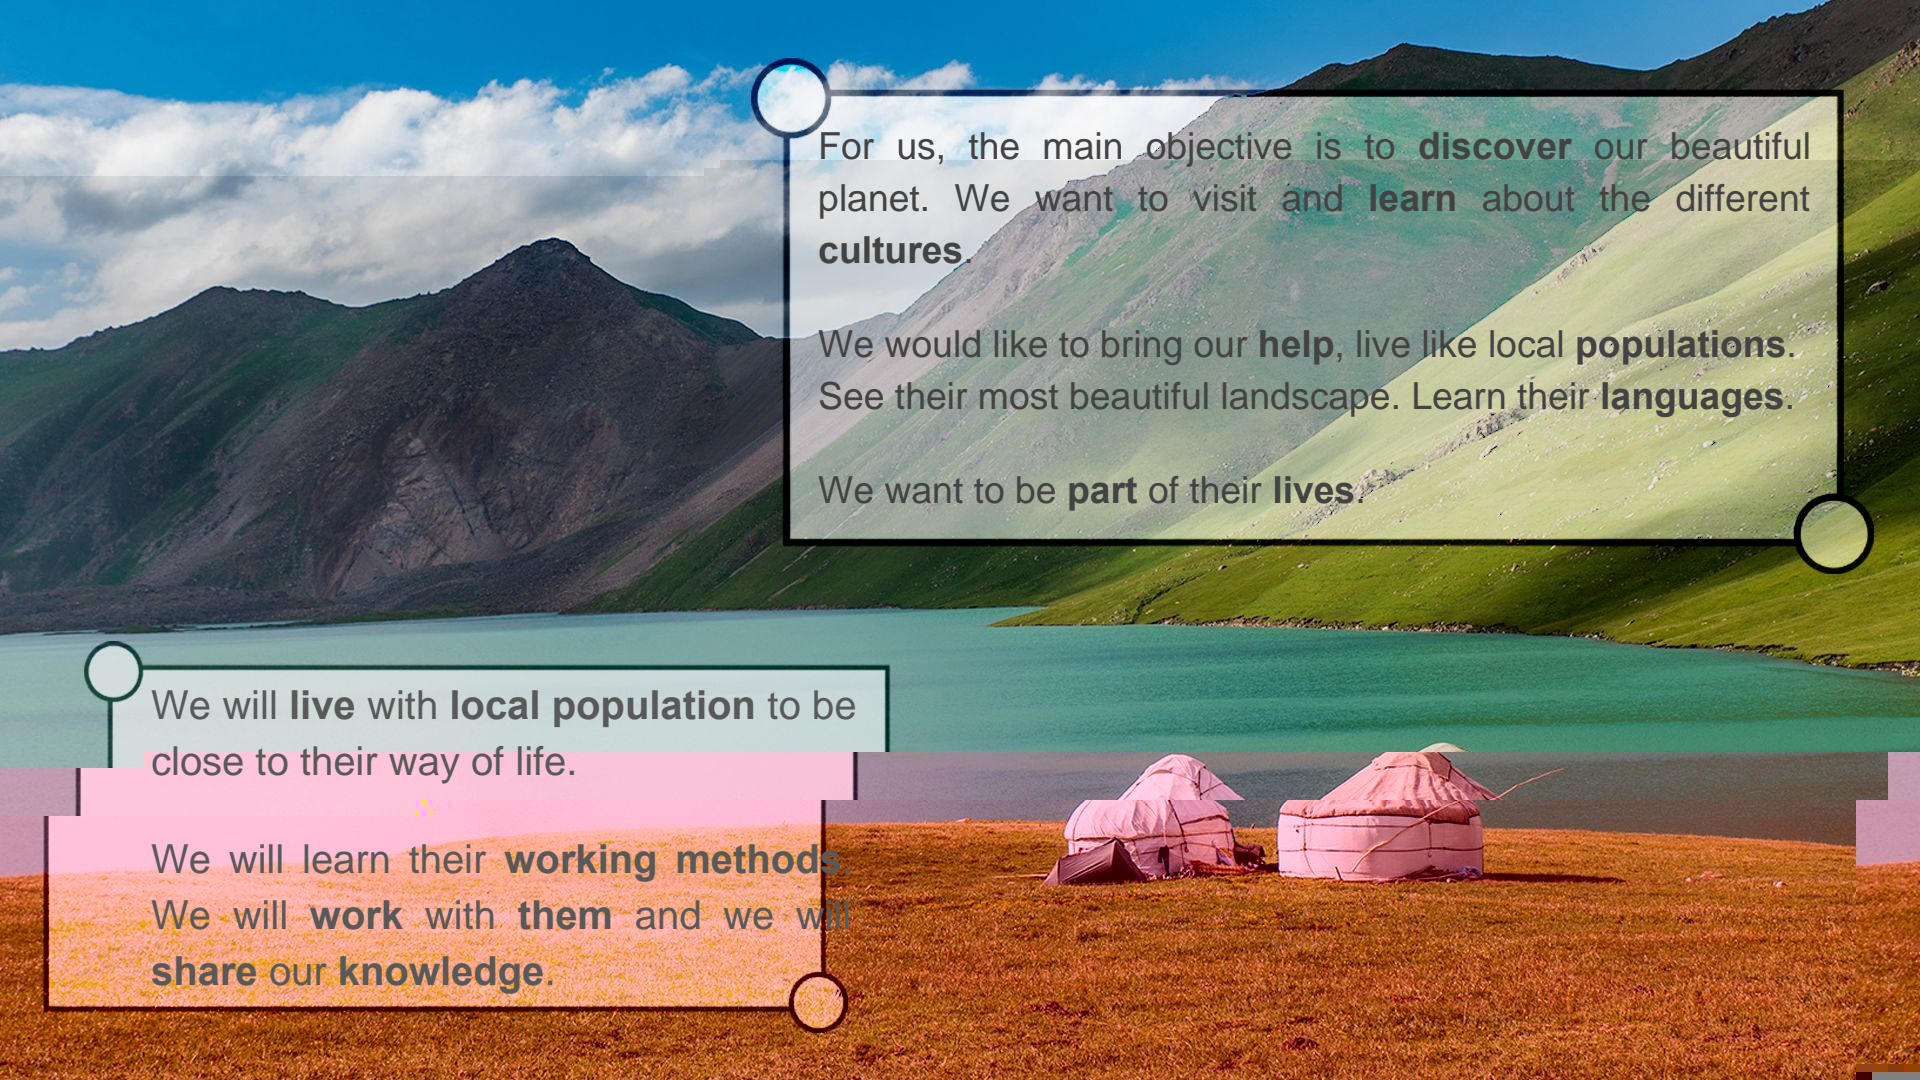

We are **24** and **25** years old, we live in **Lyon**.
We are currently IT engineer, recently **graduated**.

Selfless, **joyful** and **funny**, we love new technologies, new **adventures**, our **friends**, our **families** and **travels**.

1 year, 4 continents, 21 countries

For us, the main objective is to **discover** our beautiful planet. We want to visit and **learn** about the different **cultures**.

We would like to bring our **help**, live like local **populations**. See their most beautiful landscape. Learn their **languages**.

We want to be **part** of their **lives**.

We will **live** with **local population** to be close to their way of life.

We will learn their **working methods**. We will **work** with **them** and we will **share** our **knowledge**.

We plan to record our most beautiful **adventures** with a **360 degree** camera.

In order to share the gorgeous **hikings** that we are going to do, share what we will see **every day**.

We will share all these moments on **Facebook, Youtube, Instagram, Snapchat** and **Twitter** almost **every day**.

Become partner

Become our partner, it is after all a **trust based** relationship but it is also:

A way to associate your company to values of **self-confidence** and **adventure**.

Photos and videos in **360°** free of use and with an integration of your **branding**.

A **test of your product** with a **highlight** on our photos and videos

Banners and **advertising inserts** on **social media**.

Your **branding** on each **communication supports** that we will use.
